

Developmental Disabilities Community Services

Handbook for Individuals Served

Welcome

We're committed to providing you with the best service possible. Please review this handbook and feel free to ask a member of our staff if you have any questions about our policies or procedures. You will have the opportunity to review this handbook with a staff member if you need assistance.

Who We Are

Jefferson Parish Human Services Authority (JPHSA) helps people in Jefferson Parish affected by mental illness, addictive disorders, and/or intellectual/developmental disabilities to live full, healthy, independent and productive lives to the greatest extent possible for available resources. We promise courtesy, empathy, and respect in meeting the expectations of those we serve and each other.

Developmental Disabilities Community Services (DDCS) at JPHSA provides services and supports to Jefferson Parish residents who meet the State of Louisiana's eligibility criteria for developmental disability services. Eligible individuals may receive services from birth throughout their life spans.

How do I apply for services for an individual with an intellectual/developmental disability?

If you suspect you or someone you know may have an intellectual/developmental disability, contact our Developmental Disabilities Community Services (DDCS) staff at (504)838-5424. You can request a determination of eligibility for developmental disability services and get referred to any other programs and services we offer (such as primary care or care for mental health and/or addictive disorders).

What is a developmental disability according to the State of Louisiana?

A developmental disability is defined as a severe, chronic disability which is due to an intellectual or physical disability or combination of intellectual and physical disabilities that occurs before age 22, is likely to continue indefinitely, and results in substantial functional limitations in three or more of the following major life areas:

- Self-care
- Receptive and expressive language*
- Learning
- Mobility
- Self-direction
- Capacity for independent living
- Economic self-sufficiency

*(*Note: Receptive language refers to the ability to understand information. It involves processing or understanding the words, sentences and meaning of what others say or what is read. Expressive language refers to being able to put thoughts into words and sentences in a way that others understand.)*

It is also important to note the following:

- Children 3-9 years of age may be eligible with only two of six substantial limitations. (Economic self-sufficiency is not considered for children.)
- Children 10-17 years of age must have three of six substantial limitations to be considered eligible. (Economic self-sufficiency is not considered for children.)
- Individuals 18 years of age and older must have three or more substantial limitations in any of the seven major life areas.
- The disability is not attributed solely to mental illness and reflects the need for a combination and sequence of care, treatment, or other services which are of lifelong or extended duration and are individually planned and coordinated.
- A substantial developmental delay or specific congenital (affecting the person at birth) or acquired condition in a person from birth through age 9 which, without services and support, has a high probability of resulting in the above criteria being met later in life may be considered a developmental disability.

How We Can Help

Services

After we determine eligibility for DDOS Services, a Personal Support Coordinator meets with you to develop a plan of support. The Personal Support Coordinator administers needs-based assessments to determine your level of functioning at home and in the community. We will discuss our service recommendations with you. All of our planning is person-centered and family-centered.

Some of the services we offer include the following:

- Individual and family supports
- Personal companion and respite services
- Psychological services/positive behavior support
- Flexible Family Fund
- Support coordination
- Supported living services
- Transition planning for high school graduates
- Vocational services
- Waiver services
- Advocacy
- Court liaison services
- Crisis intervention
- Referrals for immunizations, annual physicals, and affordable primary care

Charitable Choice

You have the right to receive services from an alternative provider if you object to the religious character of the current program. Federal law gives you:

1. the right to a referral and to services within a reasonable time after the date of such objection;
2. the right to receive substance use treatment services from a provider that has the capacity to provide such services;
3. the right to access services from an alternative provider that is reasonably accessible to you; and
4. the right to equivalent services, i.e. the value of referred services are not less than the value of the rejected services.

Additionally, the faith-based substance use treatment provider is not allowed to require participation in any religious activity as a component of treatment and may not discriminate against you on the basis of religion, a religious belief, a refusal to hold a religious belief, or a refusal to actively participate in a religious practice.

Supporting and Promoting Independence

JPHSA funding and services are not meant to replace natural and community resources. They support and promote greater independence, participation, and productivity toward overall goals of personal responsibility, empowerment, self-determination, good citizenship, and a positive quality of life within one's home and community. If funding and services are needed, a priority assessment is completed based on need and available resources.

Individuals/families may choose to do the following:

- Individuals/families may hire their own personal service provider from within their network of family, friends, and neighbors, and/or a Home and Community-based Waiver service provider. They must arrange for the training of the service provider and directly supervise the provider in providing the services as described in their Comprehensive Plan of Support and JPHSA Contract Agreement. Individuals/families must pay their personal service provider, and JPHSA reimburses them for disability-related supports and services (e.g. therapies, medical expenses, respite/personal companion, and disability related supplies).
- Individuals/families may utilize an approved, qualified JPHSA Community Service Provider Agency to deliver their services. The Community Service Providers hire, train, and supervise the direct support workers who provide the services approved in the Comprehensive Plan of Support. JPHSA Community Service Providers must meet JPHSA quality requirements. A Qualified Developmental Disabilities Professional is required to supervise services to individuals/families; have a 24 hour on-call service; meet direct support worker training requirements; and meet required JPHSA, state and federal licensing and certification standards for reporting critical incidents, training and supervision of staff, and documentation of services delivered. The DDSCS Community Resource Directory provides a

listing and description of the approved Community Service Providers and the services they provide. This directory may be requested by calling us at (504)838-5424.

Personal Support Coordinators and You

Personal Support Coordinators assist individuals/families in obtaining needed community resources and JPHSA services and funding. They monitor the services identified in the Comprehensive Plan of Support of individuals/families to ensure the effectiveness of services, resolve barriers to services, and continuously monitor satisfaction with services.

The individual/family works with the Personal Support Coordinator to develop a contract agreement so they may purchase the services and supports identified in the Comprehensive Plan of Support. The parent and/or adult with a disability (if able to give informed consent) is the primary decision-maker and has choice and control of his or her authorized resources as stipulated in the JPHSA contract agreement.

JPHSA respects the rights of individuals to be included in aspects of community life shared by all citizens, including participation in elections. JPHSA offers the opportunity to register to vote at admission to a program, upon financial recertification, renewal, change of address, or change of name (when staff is made aware of the address/name change). If you are interested in registering to vote at any time during your participation at JPHSA, please ask a JPHSA staff member to assist you in doing so.

How You Can Help

Fees & Payment

JPHSA expects payment, including any private insurance co-payments, at the time of service, unless prior arrangements are made with JPHSA's Finance Operations office. We will bill you for all outstanding fees.

Discounted fees may be available based on the U.S. Federal Poverty Guidelines along with your income and household size. To be considered for a discounted fee, you must submit an initial application and re-applications on an annual basis thereafter. As part of this process, you will be asked to provide a copy of your most recent tax return, three most recent paycheck stubs, or annual social security statement.

If you are interested in applying for Medicaid, Medicare, or private insurance through the Health Insurance Marketplace, JPHSA staff can assist you and your family in the application process. Please advise any staff member of your interest, he or she will schedule an Outreach and Enrollment Specialist to assist you in completing your application.

Positive Behavior

If you become frustrated or upset while on our premises, our staff members will make every attempt to help you become calm. They will escort you to a quiet place and will work with you to resolve the issue. If you should present a danger to yourself or someone else, we may use physical holds to keep both you and our staff members safe. Physical holds are only used as a last resort and only to ensure your safety and the safety of others. Physical holds will remain until you regain self-control or, if not, until emergency services arrive. If this kind of crisis occurs in the community or in your home while our staff is present, they may contact 9-1-1 for assistance if needed and may also need to leave the area to ensure their safety. A copy of JPHSA's Behavior Support and Management policy is available upon request.

No Weapons

JPHSA does not allow weapons on the premises or wherever services are being provided. If you arrive at a JPHSA facility with a weapon, you will be asked to leave it in your vehicle. If the request is refused, you will be asked to leave and the appointment will have to be rescheduled. If you refuse to leave, we will contact law enforcement. If there is a weapon present during a session or visit in a community-based location, our staff will request it to be safely secured and stored. If the request is refused, our staff will leave and the appointment will have to be rescheduled.

Tobacco and Electronic Cigarettes

JPHSA prohibits the use of tobacco/electronic cigarette (e-cigarette) products in the interior of properties occupied, owned, or leased by JPHSA and within 25 feet of any entrance/exit.

Tobacco/e-cigarette products include, but are not limited to, smoking tobacco of any kind, oral tobacco products (dips, chewable tobacco, etc.) and any form of smoking device. If you need help quitting smoking, please ask a staff member for a smoking cessation treatment referral.

Confidentiality of Substance Use Disorder Client Records

- The confidentiality of substance use disorder client records maintained by JPHSA is protected by federal law and regulations under 42 CFR Part 2.
- Generally, JPHSA may not say to a person outside of JPHSA that an individual receives any substance use disorder related services, or disclose any information that may potentially identify a client having a substance use disorder unless (1) the client consents in writing (the client wishes to send their records to an outside provider that also provides care to the client or their probation officer as part of their supervision of the client); (2) the disclosure is allowed by a court order (the court order is accompanied by a valid subpoena compelling the use or disclosure of records); (3) the disclosure is made to medical personnel in a medical

emergency or to qualified personnel for research, audit, or program evaluation (the client is unable to provide consent during the medical emergency due to an incapacity or during an evaluation of the agency's program by the Louisiana Department of Health to ensure compliance with federal and state laws); or (4) the disclosure is otherwise permitted by 42 CFR Part 2.

- Records that are disclosed to JPHSA, or a business associate, pursuant to the patient's written consent for treatment, payment, and health care operations may be further disclosed, without the patient's written consent, to the extent the HIPAA regulations permit such disclosure.
- Under 42 CFR Part 2, there may be the ability to use or disclose records to fundraise for the benefit of the program, but only if you have first been provided with a clear opportunity to elect not to receive fundraising communications from the program. However, JPHSA does not fundraise as a program.
- A patient may provide a single consent for all future uses or disclosures for treatment, payment, and health care operation purposes.
- JPHSA will only use and disclose your protected information as described in this notice, or with your written consent.
- You may revoke your consent at any time, except to the extent that JPHSA has acted in reliance upon it. You may revoke consent by submitting a request in writing, or request a reasonable accommodation for an alternative revocation process, to the Privacy Officer at (504) 324-1400.
- If you were mandated to treatment through the criminal legal system (including drug court, probation, or parole) and you sign a consent authorizing disclosures to elements of the criminal legal system such as the court, probation officers, parole officers, prosecutors, or other law enforcement, your right to revoke consent may be more limited and should be clearly explained on the consent that you signed.
- Records, or testimony relaying the content of such records, shall not be used or disclosed in any civil, administrative, criminal, or legislative proceedings against you unless based on your specific written consent or a court order in accordance with 42 CFR Part 2. Records shall only be used or disclosed based on a court order after notice and an opportunity to be heard is provided to you (the patient) and/or the holder of the record, where required by 42 USC 290dd-2 and 42 CFR Part 2. A court order authorizing use or disclosure must be accompanied by a subpoena or other similar legal mandate compelling disclosure before the record is used or disclosed.
- Violation of federal law and regulations may be subject to civil or criminal penalties. Suspected violations may be reported to appropriate authorities in accordance with federal regulations. Federal law and regulations do not protect any information about a crime committed by a client either at the program or against any person who works for the program or about any threat to commit such a crime.
- Federal laws and regulations do not protect any information about suspected child abuse or neglect from being reported under state law to appropriate state or local authorities.

Your Rights as a Patient

- You have the right to discuss this notice with the Privacy Officer of JPHSA.
